

**Alcona Township Fire Department
Board Report
March 9, 2010**

Last year Lincoln Fire Department contacted Fire marshal Greg Oke to investigate a house fire. Greg was able to determine that the fire was arson, and called in law enforcement.

Dive team leader, Dennis Scott has applied for grants from Homeland Security, through emergency manager, Tim London for dive equipment.

Upcoming in 2012 all fire/police departments will need to have ready **ALL** mobile, portable radios, and pagers for the new frequency updates. I will have to order new mobile, portable radios, and pagers to comply with the update. Some of the radios' I have will be reprogrammed to meet compliance.

Respectfully submitted,

Ralph M. Klotz, Chief
