Alcona Township Fire Department Board Report May 11, 2010

Three companies have demonstrated their Jaws of Life equipment, fire department officers will now meet to decide which set will best serve our needs.

On May 14, 2010 at the CRTTC Training Center, Ford Motor, Toyota, and General Motors will be hosting a hybrid vehicle seminar.

On May 15 and 16, 2010 Chad Kamischke, Cathy Dettling, Dennis Scott, and Mike Escareno will be attending a Jaws of Life training class at the CRTTC Training Center.

Thomas Elmer has submitted an application for fire fighter. His driving record shows several violations, with 21 points for speeding, and one accident. Our fire fighters have asked me to present this application to the board with the understanding that Mr. Elmer, will not be allowed to drive any department vehicles.

Respectfully submitted,

Ralph M. Klotz, Chief
